Summary

I am a very unique person with an objective of improving, adding values and leaving a place more stronger than I met it.

Also, recently graduated August 2023 from University of Uyo, Uyo and bagged Bachelor of Engineering, B. Eng in Electrical / Electronic Engineering.

Overtime, I have had over 3 years of industrial experience in the power sector starting with, an Assistance Operator (DISCOS) and also, had an Intership programme with the Transmission Company of Nigeria (TCN), and here I obtain a very dynamic skills of operations from the National Grid to Transmitting Stations and then to Distribution Stations (DISCOS).

I have successfully carried-out and assisted my station supervisor in carrying out all the necessary operations and transmit electricity to all the Distribution Substations linked to us which was about 9 Feeders and mounted the substations with an installed capacity of 180 MVA.

Currently, Working on obtaining a degree in Software Development with BYU-Idaho, USA.

Experience

President
